

Happy Valentines Day!

We want to send a special shout out to our amazing Venue Volunteers!

Without them we would not have the success and awareness in our community that we have gained over the years. Being a venue volunteer only requires an hour or two every couple of months, but it accomplishes such an integral part of our mission.

Below are a few words from some of our longest tenured volunteers....

"I adopted twins through foster care and anything I can do to get the word out about these amazing kids, I will do. My children and I change the heart gallery pics together and we pray over them. Sometime there is a child the exact age of one of my own and it hits me hard.

Thank you AFFEC!!"

"I began volunteering as the Cottage Grove venue volunteer around the time we began the paper chase for adoption number two. My son, adopted from Korea, was in preschool a few hours a week, so I had the time. It was meant to be a helpful thing I could do to pass the months, waiting for

our daughter. Well, the wait turned into years, but still I hung the pictures. Finally, after three years, we were matched with our daughter. Now, our daughter has been home for exactly three years, and still I hang the pictures so that other children have a chance to be united with a forever family."
