

*A Family For Every Child
Celebrates
National Mentor Month!!*

The month of January is National Mentor Month and here at AFFEC we are celebrating one of our oldest and most impactful programs. With countless matches successfully completed and many more youth waiting to be matched, we are looking to our community for more volunteers.

Why Mentor?

Mentoring a youth in our community impacts their lives in a substantial way. Youth who have a mentor involved in their lives are:

- 52% less likely to skip school
- 46% less likely to begin using drugs
- 27% less likely to begin using alcohol before turning 21

These numbers have huge impacts in regards to how our youth grow up. They have a better outlook on their potential and understand that they too have the ability to succeed.

They get to experience healthy relationships, which impacts the relationships they create with friends and aids them in understanding how to interact with others.

Our mentor program is located in both Lane County and the greater Portland area. Without continued support we will not be able to include additional locations.

Fill Out a Volunteer Application!!

Come mentor with us!
By filling out the application from the link above,
you will be making a difference for a youth in your community.
We thank all of our mentors and donors for their continued support
and wish you all a Happy 2017!!
