AFTER THE 15TH NIGHT A YOUTH SPENDS ON THE STREET, THEY ARE 80% LESS LIKELY TO ASSIMILATE BACK TO A HEALTHY LIFESTYLE

October Host Home Newsletter

WHAT WE'VE BEEN UP TO:

New Partnerships:

After being in effect for 1 year, the 15th Night has seen an increase every quarter in the organizations and businesses committing to the network. These partners create a system that allows youth advocates to provides our community's youth with the items the need to either prevent them from being homeless, or intervene when they run out of housing options. Here at AFFEC, we have an exciting development on the partnership front! We recently received grant funding in conjunction with Direction Service to increase the number of youth served by each agency.

New Connections:

With the awareness of the 15th Night and our Host Home program ever growing, we've been connecting with more and more community members. Over the past few months we've seen an increase in the number of individuals reaching out to us with interest in helping 15th Night Youth. These new contacts help by volunteering as mentors, host home providers, or family finders for youth experiencing homelessness in our community.

What's next:

As fall progresses and the weather changes for the colder, A Family For Every Child is gearing up to serve the anticipated numbers of youth in unstable housing situations. We are processing Host Homes, preparing mentors, and doing community outreach in order to make a stronger team for our youth. We could not do what we do without the community and need their continued support in order to reduce the impact homelessness has on our young people. To everyone who has helped us get to this point (the Host Home program is almost 1 year old)-
THANK YOU!!!!

HAVE A HAPPY FALL AND A GREAT START TO YOUR HOLIDAY SEASON

-AFFEC PERMANENCY TEAM
