

Permanency Programs

A Family For Every Child's Permanency Programs all seek to give youth support and stability needed for them to reach their full potential. By ensuring that no youth ever feels alone, unwanted, silenced or afraid, we're helping to give them the tools they need to thrive. Find out more about our programs and what you can do help below!

MENTOR PROGRAM

Our [Mentor Program](#) is full steam ahead for 2018! We've had wonderful success matching the caring and enthusiastic volunteers with foster care and at-risk youth! Every mentor matched means a youth's life is changed for the better.

With only 10 hours a month, our mentors help build their mentees' confidence, self-esteem and gives them the assurance that they are not alone.

FAMILY MENTORING

You don't have to mentor alone, you and your family can mentor together! You can include your mentee in family dinners, outings, and activities. With the help of your family, you can give a youth the sense of belonging support.

MENTOR LIKE A MAN

Right now there is a huge need for male mentors. In Lane County alone there are over 20 male youth waiting for their very own positive role model. You could use that 10 hours per month to give a young man the skills he needs to thrive. *Every successful man had a least one caring and supportive adult in his life.* You can be the difference between and statistic or a success story!

HOST HOME PROGRAM

In conjunction with [The 15th Night](#), we've been

actively working on making sure that no youth has to forsake their education and their future because they are experiencing homelessness.

By connecting our youth with the wonderful Host Home volunteers, we're ensuring that homelessness is never an insurmountable barrier to education. No youth should ever have to worry about where they are going to sleep that night.

If you have a spare room you can give a youth experiencing homelessness the safety and security needed to continue with their education and keep them safe from the dangers of drug use, violence, and human trafficking that plagues the homeless population.

As long as there is a youth in need we will need host homes.

FAMILY FINDING

Every child has a family and we're here to help find them. We help youth who are in foster care locate their families to give them the sense of permanency that is lost and give them a permanent and loving home.

No child deserves to be denied their family.

[If you know someone who needs help finding their forever family or if you would like to help, you can find out more here!](#)

FAMILY PRESERVATION

Keeping families together is crucial to maintaining a child's sense of permanency. You can help by becoming a parent mentor! Parent mentors work with other parents to help them navigate social services and systems, emboldening them with advocacy and enabling their own self sufficiency.
